Publications

[Prevention is better than cure: our vision to help you live well for longer](#) This document sets out the government's vision for putting prevention at the heart of the nation's health.

[Personalised care operating model](#) The personalised care operating model shows how all the various components work together to deliver a joined-up approach around the needs of each individual.

[Comprehensive model of Personalised Care](#) This comprehensive model of personalised care helps to establish a whole-population approach to supporting people of all ages and their carers to manage their physical and mental health and wellbeing, build community resilience, and make informed decisions and choices when their health changes.

[The health care workforce in England: make or break?](#)

[Budget 2018: what it means for health and social care](#) In this joint piece the Health Foundation and Nuffield Trust analyse what was announced in the 2018 Budget and what it means for health and social care. [Report](#)

[Amending the 2012 Act: can it be done?](#) This piece identifies some of the main complaints about how the current law operates; outlines some of the implications should attempts be made to amend it; and asks how far progress could be made within the existing legislation.

Studies

[Albumin administrations can prolong survival for some people with liver disease](#) The first large trial to study the effects of long-term albumin infusions explores improved survival and reduced hospital admissions.

[‘Artificial pancreas’ improves glucose control in hospital patients with type 2 diabetes](#) This study examines how closed-loop insulin pumps, which continuously monitor blood glucose and administer insulin accordingly, can improve blood glucose control among patients with type 2 diabetes admitted to hospital for non-critical care.

[How local Global Burden of Disease data can help shift the focus for the NHS](#) This study provides a detailed and comprehensive picture of the health of people in the UK [Full article](#)

Surveys

[Overwhelming public support for sugar and calorie reduction](#) A survey from Public Health England (PHE) found that around 9 in 10 people support the government working with the food industry to make food healthier.

[Letting Local Systems Lead: How the NHS Long Term Plan can deliver a Sustainable NHS](#) This follows a survey of NHS Confederation members calling for action to remove the barriers to effective local system working.

News

[Public Health England warns travellers of rabies risk](#) PHE is reminding travellers to avoid coming into contact with animals when travelling to rabies affected countries due to the risk of catching the disease.

[Mental health leaders welcome first NHS strategy to tackle violence against staff](#)

[Mental Health Units \(Use of Force Bill\) becomes law](#) The Mental Health Units (Use of Force) Bill – also known as Seni's law - has received Royal Assent, and has become an Act.
